### UNISEX MODEL

### DESCRIPTION

TREE CLIMB is a new generation of climbing boots. Its **Easy Climb** concept, with through-holes in the sole for inserting a rope, offers a customizable system for SRT climbing. It provides an ergonomic and physiological advantage without damaging the upper or reducing the grip of the sole. Its tapered and sleek design besides giving a stunning look, also means you can move around without constraint, even in crotches.

### KEY FEATURES

- **Easy Climb:** Outsole with through-holes to insert a rope that provide a real ergonomic and physiological advantage for SRT climbing.
- **Vibram® Winkler outsole:** abrasion resistant, guarantees a high level of precision and control with every movement, stability and comfort at the same time.

- **Performance:** Built with premium leather and materials for maximum durability.
- **Resole is possible.** To extend the lifespan of shoes a sole replacement is feasible.

### WEIGHTS & DIMENSIONS

**Size:** 42  
**Weight:** 1.66 kg  
**Front Height:** 18 cm

### PACKAGING

TREE CLIMB's packaging is made of cardboard with CITEO standardization.

Donner ensemble une nouvelle vie à nos produits.
